Dalvin Bar and Accessories are compatible with all Reid products.

Test certificates will always be provided upon request.

About Us

Dalvin Corp is a family owned business focused on client relationship and ultimately swift, reliable and consistent delivery. Our reputation for excellent Customer Service comes from our years of experience in the building industry. Because you deal direct with the business owner, there's no middle man. And we understand what you need. All our products have passed stringent testing and meet Australian standards. They have been used in major building projects around the country.

Product quality assurance and testing:

Dalvin Corps products are manufactured in certified mills to ensure it meets Australian and New Zealand standards (AS/NZS 4671: 2001).

Dalvin Corp's agent is designated overseas to oversee the quality control of our products during manufacturing and to ensure material composition tests and integrity testing is executed and documented accordingly. Newly batched items will also undergo independent Mechanical testing in Australia and all certifications can be made available upon request.

Evidence of Independent testing:
